About Me

I'm a Bachelor of Computer Science from Spain/Venezuela with more than 8 years of developing experience.

I have experience with the following technologies:
- Ruby on Rails (Back-End, API's development)
- CakePHP (Back-End development)
- JavaScript, jQuery, Backbone.js, Socket.io, Marionette.js, Handlebars
- Maintenance and Server configuration

During my experience I have achieved:
- Successful implementations of RoR and PHP applications at several public and private sector clients.
- Successful consulting experience and IT Support.
- Mature leadership with an exceptional ability to plan and organize work efforts in a team environment.

Johns Hopkins University on Coursera – February 2017

SKILLS

Web Development
- Ruby on Rails
- JavaScript
- jQuery
- PHP
- Cake PHP
- CoffeeScript
- PostgreSQL
- MongoDB
- ElasticSearch
- MarionetteJS
- Handlebars
- Capistrano
- Git
- Web3 JS
- Ethereum

Server Environment
- Ubuntu Server
- Nginx
- Shell Script
- SSH

IT Support
- Windows
- Linux
- Mac OS

INTERESTS

Software
- New Technologies
- Development

Sports
- Skydiving
