About Me

I'm a Web developer/Bachelor of Computer Science with more than 8 years of developing experience

I have experience with the following technologies:
- Ruby on Rails (Back-End Development, API's development)
- CakePHP (Back-End Development)
- Javascript, Jquery, BackboneJS, Socket.io, MarionetteJS, Handlebars (Front-End)
- Maintenance and configuration of servers

During my experience I have achieved:

- Successful implementations of RoR and PHP applications at severals public and private sector clients and corporations.
- Successful consulting experience and IT Support.
- Mature leadership with an exceptional ability to plan and organize work efforts in a team environment.
